

VILLA PANIGAI

## HILLS OF PROSECCO CONEGLIANO - VALDOBBIADENE

from the Villa Panigai farmhouse in Valdobbiadene 15 Km

Discovering the enological and gastronomic tradition and culture of these lands, as well as some examples of local culture and art.

### DISCOVERING THE CARPENTRY PRODUCTION AREA, LA PERLA OF PROSECCO DOCG

You can admire the **TOWERS OF CREDAZZO**, the remains of the Castello di Credazzo complex belonging to the Collalto fiefdom starting from the 10th century, destroyed several times by the barbarian fury of the Lombards, Huns and Hungarians. It has been restored, however there are no possible inside visits but a walk is worth to admire a wonderful panorama, where the remains of the castle and the church of San Lorenzo sprout between the rows of the vineyard. Above the hill the Chies dedicated to S. Vigilio enriched with 15th-century frescoes inside. From the church you can admire a beautiful view of Col San Martino.

Visit the **CANTINA CA 'SALINA** and just after the **OSTERIA SENZ'OSTE** one of the most evocative places to admire a wonderful panorama while sipping a glass of DOCG prosecco and tasting the typical products of the area, where you can serve and pay without the presence of waiters. (small section on foot to reach the Osteria). Before the center of Valdobbiadene on the right there is **VILLA DEI CEDRI**, built as a factory in the nineteenth century. It has an asymmetrical structure, with a central body (with frescoes and paintings on the facade) and a side wing. Only the open garden can be visited when it hosts various events during the year such as "Calici di Stelle" in August when sommeliers are present to let you taste the Prosecco from the local cellars.

In **VALDOBBIADENE**, you can taste the famous SPRITZ cocktail, made with prosecco, soda and Aperol in one of the bars in the center.
